BSBSS00095- CROSS-SECTOR INFECTION CONTROL SKILL SET

COURSE CONTENT

COVID19 has had an immense impact on the way Australian interact with each other at work and in our daily lives. It is important that all businesses and workers ensure they can safely reopen and engage with customers.

The BSBSS00095- Cross-Sector Infection Control Skill Set is an accredited online program available to help staff in critical industries identify and manage the ongoing risk of coronavirus (COVID-19) infections. This training is government-subsidised and offer free of charge to eligible applicants.

After completion of the training, participants will be able to confidently:

- Follow standard and additional precautions for infection prevention and control
- Identify infection hazards and assess risks
- Follow procedures for managing risks associated with specific hazards.

STANDARD PROGRAM OUTLINE

During this course participants will learn:

- Hand hygiene practices
- Effective surface cleaning
- Use of personal protective equipment
- Disposal of contaminated waste
- Hazard identification, control, and reporting
- Appropriate protocols and responses in the event of an incident
- Knowledge regarding the basis of infection and transmission

DELIVERY AND ASSESSMENT

The program is delivered as a blended online and workplace observation model

The program combines an online audio-visual presentation followed by a short quiz based on presentation content.

Our training team will then confirm through direct and third-party observation your ongoing compliance to COVID and infection control procedures in your workplace.
